

MSRcosmos
PROMISE DELIVERED

Taking the next big leap with Cloud

Build a solid digital foundation using state-of-the-art cloud technology to become highly service-oriented, scalable, and robust with minimal effort.

Trusted Partner by the Industry's Hyperscaler Leaders

Google Cloud

Mastering Cloud Transformation

Enterprises are seeking cloud opportunities to fuel their digital transformation initiatives for faster time to market and frictionless customer experience. Laying the foundation and managing the cloud environment need masters in the game. At MSRcosmos, we treat every cloud transformation as a unique engagement to advocate sharper strategies and solutions that deliver the right purpose.

Only MSRcosmos can help you unleash the full power of the cloud. As the most experienced and trusted cloud transformation partner, we offer the right solutions and approaches to help enterprises achieve their cloud ambitions.

Our certified cloud experts help you in:

- Deciding which workloads to migrate and in what order.
- Ensuring the availability and performance of mission-critical systems.
- Putting in place the right security procedures and ensuring regulatory compliance.
- Choosing the best cloud provider in terms of performance, cost, and security.
- Ensuring that the cloud migration does not interfere with existing IT service management processes, such as fixes and enhancements, or the workloads that manage them.
- Saving ongoing costs and maintenance through proactive support.

End-to-End Services Offerings

Paddle-shift from cloud-first thinking to a cloud-everywhere ecosystem.

Cloud Advisory and Strategy

Assess your current business need and select the right roadmap with the right cloud platform which can reap maximum ROI.

Cloud Engineering and Automation

Re-architect, re-host, re-platform, and re-purchase your applications and data for your cloud-native infrastructure.

Cloud Operations

Save costs and achieve guaranteed peak performance with reliable cloud operational support and management.

Cloud Infrastructure Management

Host, monitor, virtualize and manage the network, storage, DR & Backup including server with a piece of mind.

The 5-Step migration approach

Unlock the power of the cloud to deliver:

Frictionless customer experience

Resilient technology model

Business process transformation

Seamless collaboration with ecosystem partners

Autonomous agile culture

Some of our cloud engagements

Client Profile	Engagement Snapshot
